Ireland – Counties with the highest vaccination rates have the highest covid19 cases

In October and November 2021, the counties in Ireland with highest vaccination rates had the highest covid19 rates. During this time, Waterford was the most highly vaccinated county in Ireland and had the highest rate of covid19 cases. In fact, Waterford was the most highly vaccinated region in the world, yet had the highest covid19 cases in Ireland. Monaghan was the least vaccinated county in Ireland and had the lowest rate of covid19 cases in Ireland.

Carlow, Cork, Wexford and Kerry, are also the highest covid vaccinated counties (over 90%) and also had the highest rate of covid19 cases in Ireland and Longford at over 85% vaccinated also had the highest rate of covid19 cases in Ireland. Waterford, Carlow, Cork, Wexford, Kerry, and Longford are the most highly vaccinated counties and have the highest rates of covid19 cases. See HSE table below.

HSE and hospital statistics show the vast majority of covid19 cases are among the covid vaccinated. This is in our books of evidence and scientific research globally.

How is it that the most highly vaccinated counties in Ireland had the highest rate of covid19 cases ? How is that county Waterford is the best example of this ?

The Evidence and Facts indicates the following:

- a) the spike proteins in the covid19 vaccines are causing positive tests for covid19**
- b) there are breakthrough infections and Antibody Dependent Enhancement is taking place causing and increasing new variants of covid19**
- c) vaccine injuries are causing positive tests for covid19**

These highly vaccinated counties will also need to be examined for a rise in covid vaccine injuries, disabilities and deaths and a rise in infant and child mortality and a rise in excess mortality in 2021 and into 2022.

Excess Mortality in 2020

The latest official GRO death data show that death rate in 2020 (the year the alleged COVID raged out of control) was the lowest death rate per thousand of population for many years. No strong evidence of a pandemic in 2020. But, there has been a big rise in excess mortality in 2021 after the introduction of covid19 vaccines in January 2021 ; it's at 2,780 by October 31 2021. This corroborates the evidence we have given to gardai since May 7th 2021.

Deaths registered in GRO and occuring in year received from GRO by email 05/10/2021 to KM			
Year	Deaths Occuring	Population x 1,000	Death Rate
2015	30,816	4,688	6.57
2016	31,363	4,740	6.62
2017	31,141	4,793	6.50
2018	31,793	4,857	6.55
2019	31,626	4,922	6.43
2015-2019 Ave.	31,348	4,800	6.53
2020	31,940	4,997	6.39
Excess in 2020	592	Excess =	1.85%

Source: GRO, Ireland and Kieran Morrissey

Excess deaths in 2020 – 592 people. No strong evidence of a deadly pandemic.

Excess deaths for far in November 2021 - 2,780 people and rising. Covid19 vaccine injuries and deaths and the Lockdowns which caused 200,000 cancelled hospital and clinic appointments played a major role in these excess deaths.

Criminal Conspiracy to commit crimes and profit from such. And the effects of this on Ireland and other countries.

In 2015 at a meeting of scientists and pharma executives and investors Peter Daszak promoted new pandemics and the use of the media and hype to fuel mass public panic and fear and severe government reactions with the sole objective of profiteering from his through a “pan-coronavirus vaccine”. He presented it as a very profitable opportunity for investors. His focus was on investors and profit. And this same Peter Daszak was involved with others including Fauci in **Gain of Function research for coronaviruses** in Wuhan and the USA to make them more infectious and deadlier and more likely to cause new pandemics. US Congressional hearings and investigations by US government agencies confirm this. The scientific and legal evidence suggests that a bioweapon was illegally created in order to profit from vaccines and boosters. Peter Daszak and Fauci and others involved have shareholdings and financial interests in covid vaccine businesses. Reference below:

‘ Daszak reiterated that, until an infectious disease crisis is very real, present, and at an emergency threshold, it is often largely ignored. To sustain the funding base beyond the crisis, he said, we need to increase public understanding of the need for MCMs such as a pan-influenza or pan-coronavirus vaccine. A key driver is the media, and the economics follow the hype. We need to use that hype to our advantage to get to the real issues. Investors will respond if they see profit at the end of process, Daszak stated. ’

Legal analysis of Peter Daszak’s words - <https://www.bitchute.com/video/S5lqqKkk0FhC/>

The large number of deaths and injuries and disabilities caused by the covid19 vaccines may be related to this in terms of more opportunities for investors to profit from new drugs and vaccines to treat these. Ireland like many other countries has suffered from the health, economic and social effects of these crimes in 2020 and 2021 and into 2022.

False Covid19 Statistics and More Evidence of Fraud

- **Italy’s Suspected Covid19 Death Tally reduced from 132,161 to 3,783**

In November 2021, Italy’s Higher Institute of Health - the Istituto Superiore di Sanità in Italy which provides official government reports on health matters stated that 3% of all covid19 deaths were from covid19 and no other illnesses. The other 97% had two or more pre-existing illnesses most of them serious or life threatening and had not long to live. They form part of the natural

deaths which occur every year for many years and decades.

Italy's official covid death tally rose to 132,161 in October of 2021. This tally is unrealistic because covid-19 was diagnosed in haste and under conditions of financial bribery using non-specific PCR diagnostic criteria. Italy's suspected covid death tally has been officially corrected by Italy's Higher Institute of Health from 132,161 to 3,783. Covid-19 was often listed as the cause of death when it was merely "suspected" and when "it could not be ruled out."

After careful review of the medical reports, it turns out that respiratory infections may have been a contributing factor but did not cause most of these covid-19 deaths outright. Various forms of medical malpractice, withheld treatment, inhumane isolation, undernourishment, and unethical standards of care are at the root of this worldwide medical crisis. The deaths are real, but the causes are skewed.

New Medical Analysis Reduces Italy's Covid-19 Death Tally By 97.1%

A new analysis reduced Italy's covid-19 death tally by 97.1 percent and provided a more accurate picture as to why these people died in the hospital. Only 3,783 cases could be directly correlated with a covid-19 diagnosis. Because the PCR test (that was designed to detect covid-19) was fraudulently-calibrated from the start, even these 3,783 cases of covid-19 are suspect. Symptoms of respiratory infection could have been the result of any number of infections that kill people every year, whether that be influenza, tuberculosis, pneumonia or countless other lower and upper respiratory tract infections. Viral infections do not have the same effect on one person to the next due to several underlying factors including the cellular and microbiome terrain, so it is extremely difficult to accurately diagnose a specific respiratory infection and quantify viral load.

According to this new analysis, only 2.9% of the deaths registered since the end of February 2020 have been caused by the novel SARS coronavirus that has never been isolated from humans and replicated in human tissue samples. The annual respiratory infections, antibiotic-resistant bacterial infections, medical errors and other acute medical emergencies that usually cause overcrowding in hospitals were used as propaganda to terrorize and defraud the world into perpetual lock down.

The covid-19 death tally included Italians who suffered from one to five underlying chronic diseases; many were on immune suppressant drugs, and a certain percentage died from medical emergencies that are totally unrelated to covid-19. A total of 67.7% suffered from more than three chronic diseases that had not been resolved through modern medicine. Italians who were already suffering from chronic conditions went on to suffer further from ventilator-associated pneumonia and ventilator-associated lung damage. One in ten of the deceased patients had a stroke; 65.8% of the Italians had arterial hypertension and were on immune-suppressant drugs; 15.7% suffered from heart failure; 28% had ischemic heart disease; and 24.8% suffered from atrial fibrillation. At least 17.4% already had sick lungs. Many (29.3% had diabetes and other metabolic ailments) that

drastically impacted their immune response.

There were several patients (16.3%) who were on their deathbed, struggling on immunosuppressant chemotherapy and radiation drugs known to make people susceptible to any respiratory infection. These cancer patients had been dealing with cancer for the past five years, with an average three-to-five-year chemotherapy survival rate coming to a close. Another 23.5% were struggling with dementia, their life coming to a close. Unethical, Inhumane Practices Have Been Implemented In Medical Systems Worldwide . Ever since the World Health Organization (WHO) declared a worldwide pandemic of SARS-CoV-2, medical systems around the world have handled hospitalized patients differently. Patients with any sort of respiratory symptom were isolated and separated from family members. “Out of an abundance of caution,” hospital systems made vague diagnoses, classifying anyone “suspected of covid” as an official case of SARS-CoV-2. These patients were viewed as highly contagious vectors of disease that should be isolated and put on mechanical ventilation.

Efficacious treatments were bypassed. People dying on ventilators were classified as covid deaths “when covid-19 could not be ruled out as the primary cause of their death.” As terror and fear were propagated across the media, hospital systems put non-urgent, elective procedures on hold, suspending routine outpatient services that left many chronic patients without adequate medical care. Industrialized nations like Italy did not implement at-home treatment plans and did not distribute nutraceuticals and prophylactics to help control respiratory disease in the population. This caused populations to be dependent on an already overcrowded system that is not set up to deal with panic, ignorance and helplessness. As nations continue to put all their stock in retrovirus-contaminated influenza vaccines and experimental gene interference covid19 vaccines, people continue to suffer and die, even as countless anti-viral, bronco-dilating, anti-inflammatory immune therapies exist.

This Italian figure of 3% corresponds to the 6% in Ireland and USA and low figures in many other countries. The excess mortality including deaths per thousand and deaths per million in Ireland and many other countries was very small or similar to the previous 5 years, clearly showing the natural death rate has been unaffected in 2020. The mislabelling of many other life threatening illnesses and diseases as covid19 is one of the greatest medical scandals of all time.

Criminal Misconduct and Fraud in trials of Pfizer covid19 vaccines which affects many countries including Ireland

A whistleblower from inside Pfizer named Brook Jackson has publicly stated that there was fraud and criminal misconduct in trials of the Pfizer covid19 vaccine. This new evidence has been published in the prestigious British Medical Journal. This is now the subject of FBI and police investigations in the USA. Similar police investigations need to be carried out in other countries affected by this covid vaccine fraud, including Ireland.

In Ireland, NPHEA and the CMO followed the covid19 advice and policies of Dr. Anthony Fauci in the USA and he and they have been proven wrong. They ignored the science and medicine and peddled lies, lockdowns and experimental covid19 vaccines and caused vast economic, financial, health and social damage to Ireland and the Irish.

Cambodia – an excellent case of covid19 vaccines leading to more covid19 cases and deaths and to excess mortality

Source: Our World in Data, <https://ourworldindata.org/>

In Cambodia, there were no covid19 cases and deaths in 2020. There is massive rise in covid19 cases and deaths after covid19 vaccinations in February 2021. This is clearly visible on the graph above. The progression of this rise in cases correlates to the increasing number of vaccinations. The same is true for most highly vaccinated countries in 2021. Observe the big rise in excess mortality in Ireland after vaccines were rolled out in late January 2021. This was observed in many countries in 2021 and presented in our book of evidence for November 2021.

Use of Blackmail and Extortion by politicians against individuals and businesses

A government Minister in Britain has stated 'have your booster jab to keep your freedoms' and this has been reported in the British press, see picture below. The same thing is happening in Ireland.

The covid vaccines and boosters have been scientifically and medically proven to be ineffective and unsafe yet governments are depriving people of their Constitutional freedoms and human rights if they don't take them. The Constitutional rights and Human Rights are innate, inalienable and imprescriptable and they are NOT given to people by politicians. This is the crime of Blackmail and Extortion in Britain and in Ireland and other countries subject to Constitutions, Democracy and Human Rights. Politicians can be arrested, charged and prosecuted for these criminal offences.
